

Business Incubator Program

Summary

Information on A-B Tech's Business Incubator Program

Program Overview

Our Business Incubation is a program to help entrepreneurs develop their businesses. It offers consultation, coaching, access to shared resources, and either office, wet lab or manufacturing facilities. It is designed to help both new and emerging businesses build a strong foundation for long term sustainability and growth.

If you are interested in applying for the program, you may request an appointment to discuss business incubation and also complete an application for the program.
