Add or Change an Academic Program

Summary

Overview of how to add or change an academic program

How to Select or Change a Program

You may select your program of study while you are completing the general College application. If you are undecided about your program of study or wish to attend as a non-degree-seeking or visiting student, select the "Special Credit" program and you will not be placed in an academic program.

Our Student Advisors can also assist you with changing your academic program. Please email advising@abtech.edu using your student email account .

Student Advisors are available for walk-in services (no appointment needed) in the Bailey Building (#5 on our campus map). Student Advising hours can be found by visiting our website at abtech.edu/hours.

Financial Aid

If you're selecting a program for financial aid purposes, you should also email the Financial Aid Office at financialaidoffice@abtech.edu to let them know you have selected a program.

Choosing an Academic Program

You can view the list of academic programs offered at A-B Tech by going to abtech.edu/academicprograms.

Career Coach is an online tool to help you explore your academic and career goals.

Career counseling is offered at no charge for students intending to take classes at A-B Tech. If you are under 18 years old, you are strongly encouraged to do a basic application to A-B Tech first, which you can do at abtech.edu/apply. For more information, see abtech.edu/careers.

Key Words: change major, declare a major, switch academic program, academic program, add program, end program, add major
